

Brenair Park Holsteins – Rochester

The large dispersal of the AI bred, commercial Holstein herd was auctioned on property at Rochester for the Parker family on Wednesday 21st April. The Parker herd is backed by generations of the breeds leading AI sires.

Buyers came from many parts of Victoria and South Australia to access the high production neat uddered cows with great dairy character – A credit to the Vendors.

Sale top of \$2500 was paid for one of many great young cows by Ladino Park Talent selling to Port Mac Dairies of SE of SA.

Strong competition was received on all above-average catalogued cows with volume buyers able to purchase drafts for between \$1600 - \$2100. Well grown heifers PTIC made from \$1400 - \$1800 and 17 well grown 2-17 week old calves averaging \$750.00
