# Foreword

Welcome to the Second Stage Complete Dispersal Sale of the long established Camo Jerseys for David and Raylene Hallyburton.

Our vendors family established Camo way back in 1938, yes 88 years ago.

The herd was auctioned last Spring and created much interest, was much admired and have gone to their new homes and performed so well.

This sale offers the next generation and as you will see in this catalogue is backed up by so many decades of leading AI Sires and deep maternal lines.

As I said at the last sale I doubt I have ever compiled a catalogue that showed me such incredible calving intervals, yes amazing fertility is bred deep into the Camo Jerseys.

This year we also feature a select offering of freshly calved heifers from the high performance Elms Park Jerseys of Andrew and Shahna Chant. This line up are also backed by leading sires and high production.

Indeed anyone in search of Autumn/Winter and a few Spring calving Jersey heifers should not miss Tuesday 28th April at Colac or online with Stocklive.
